

Position Overview

Join our compassionate and dedicated team to provide meaningful, trauma-informed support to youth and young adults impacted by sexual exploitation and trafficking. You'll deliver individual, family, and group therapy to guide clients through their healing journey. Your role will also include conducting in-depth psychosocial assessments and creating personalized treatment plans that foster growth and resilience.

In collaboration with multidisciplinary teams—working closely with DHS, parole/probation, schools, and community partners—you'll help provide holistic support for the individuals you serve. You'll also offer some case management services to ensure clients can access vital resources and meet their basic needs.

Why Join Us?

- Flexible Schedule: Full-time, 40-hour week with flexibility to meet the needs of the youth and program. While hours are typically Monday through Friday (9 AM - 5 PM), your schedule can adapt to better serve clients. Every 6 weeks, you'll rotate after-hours coverage for Anisa's Place, our therapeutic housing program.

-Dynamic Work Environment: Sessions take place where clients feel most comfortable—whether it's in their home, at a coffee shop, or other safe community locations. Expect to spend time out in the community, building trust and creating change in meaningful spaces.

-Therapeutic Housing Support: Anisa's Place is an important aspect of our services, and you'll play a key role in supporting the young residents as part of their long-term healing process.

-Experienced Clinician: You bring 2-3 years of experience working with adolescents and families, along with expertise in a variety of clinical interventions and mental health assessments.

- Trauma-Informed: You have a deep understanding of the effects of complex trauma and sexual abuse, and you're dedicated to providing empathetic, person-centered care to high-risk, disadvantaged youth.

- **Animal-Assisted Therapy:** You enjoy spending time with therapy goats as part of our innovative approach to client care.
